FIRST BLOG POST: THE RISE OF DEVOPS AS A SERVICE

UNICORN's first blog post explains the rise of DevOps as a Service (DaaS) and presents the main challenges that it will help to overcome. How can you benefit from this new tool? Just follow up our blog and discover UNICORN's new approach!

You can read our blog posts [here](#).

LESS COSTS AND MORE SECURITY FOR ENTREPRENEURS

Project partners explain why UNICORN is important for the developers, especially in the small and medium companies – less costs and more security are just the cherries on the cake! Understand, what does it consist from, and how will it work!

Find out more [here](#).

WHERE TO FIND US: INTERNATIONAL EVENTS IN EUROPE

UNICORN project partners have participated in numerous international events, where they had a chance to spread the word about the UNICORN. UNICORN was spotted at NetFutures 2017, CERC, SEC2U, CloudWatch Summit, etc.
